Journ. Geol. Geograph.
Geology,
28(2)

doi: 10.15421/11193501

CONTENTS

- Adamenko O. M.** The Upper Pleistocene stratigraphy of the Starunya site as a “bridge” between the stratigraphical frameworks of Western Europe and the plain area of Ukraine 213
- Bezusko L.G., Mosyakin S.L., Tymbalyuk Z.M.** Spatio-temporal differentiation of distribution patterns of *Salicornia perennans*, *Halimione verrucifera*, and *Suaeda cf. prostrata* (*Chenopodiaceae*) in the plain part of Ukraine during the Allerød–Holocene 221
- Bonchkovskiy O.S.** Changes in pedogenic processes during Pryluky times of the Late Pleistocene in the central part of the Volyn Upland 230
- Bondar Kseniia, Ridush Bogdan, Baryshnikova Mariia, Popiuk Yana.** On palaeomagnetic dating of fluvial deposits from Neporotove gravel quarry on the Middle Dniester 241
- Dykan N.I.** Stratigraphy of the Pliocene deposits of the Black Sea (Ukraine) according to ostracods (*Arthropoda*, *Crustacea*) 250
- Gerasimenko N. P., Koval’chuk I.P.** The Late Pleistocene soils as indicators of the impact of environmental changes on development of pedogenic processes (the study case from the Kryva Luka site, Donetsk area) 262
- Gerasimenko N., Kulakovska L., Usik V., Votiakova O.** Palaeoenvironmental changes during the Middle and Early Upper Paleolithic in the Upper-Tysa Depression, Ukraine (the Sokyrnytsya and Ruban’ sites) 275
- Gozhik P.F.** About Lower boundary of the Quaternary systems in the Azov-Black Sea basin 292
- Hlavatskyi D.V.** Refined magnetostratigraphic position of the Shyrokyne unit in loess sequences from Central Ukraine 301
- Karmazinenko S.P.** Pleistocene soils of the Azov Lowland, Ukraine 313
- Matviishyna Zh.M., Doroshkevych S.P.** Micromorphological peculiarities of the Pleistocene soils in the Middle Pobuzhzhya (Ukraine) and their significance for paleogeographic reconstructions 327
- Rohozin Ye. P.** Non-pollen palynomorphs as indicators of palaeoenvironmental changes: a case study from Lake Chokrak (the Crimean Peninsula) 348
- Sirenko O.A.** Changes in Pleistocene vegetation and climate of Ukraine in the range of 1.8-0.4 million years 355
- Veklych Yu.** Map of Quaternary formations of Ukraine in scale 1:2,500,000 367
