Academician V.L.Makarov is 75!	3
<i>R. S. Chapko, O. M. Ivanyshyn Yaman and T. S. Kanafotskyi</i>	
On the non-linear integral equation approaches for the boundary reconstruction in double-connected planar domains	7
<i>S. V. Litynskyi and A. O. Muzychuk</i>	
On the generalized solution of the initial-boundary value problem with Neumann condition for the wave equation by the use of the retarded double layer potential and the Laguerre transform	21
<i>Y. A. Muzychuk</i>	
On the boundary element method for boundary value problems for convolutional systems of elliptic equations	40
<i>A. Nazarzadeh, KH. Rahsepar Fard and A. Mahmoodi</i>	
Another Case of Incidence Matrix for Bivariate Birkhoff Interpolation ...	55
<i>I. A. Raynovskyy and A. N. Timokha</i>	
Resonant liquid sloshing in an upright circular tank performing a periodic motions	71
<i>K. V. Shvai</i>	
The best M -term trigonometric approximations of classes of (ψ, β) -differentiable periodic multivariate functions in the space $l_{\beta,1}^{\psi}$	83
<i>S. G. Solodky and G. L. Myleiko</i>	
On optimal selection of Galerkin's information for solving severely ill-posed problems	92
<i>V. V. Stelmashchuk and H. A. Shynkarenko</i>	
Numerical solution of Lord-Shulman thermopiezoelectricity forced vibrations problem	106
<i>Yu. M. Sybil and B. E. Grytsko</i>	
Boundary value problem for the two-dimensional Laplace equation with transmission condition on thin inclusion	120

C O N T E N T S

<i>V. B. Vasylyk</i> Exponentially convergent method for differential equation in Banach space with a bounded operator in nonlocal condition	130
<i>L. A. Yanovich and M. V. Ignatenko</i> Interpolation formulas for functions, defined on the sets of matrices with different multiplication rules	140
<i>O. S. Yaroshko</i> On the application of Multiparameter inverse eigenvalue problem and numerical methods for finding its solution	159
