

## MIE 2018

### Building Continents of Knowledge in Oceans of Data: the Future of Co-Created Health

Gothenburg, Sweden April 24 to 26, 2018

Medical Informatics is a field of great importance and our knowledge is rapidly growing with speed that exceeds expectations. Previous MIE conferences have all been a success gathering many of the most merited scientists within the field. The scientific program will include the State of the Art in the area and we hope that MIE 2018 in Gothenburg will be a great and memorable event for all of us. MIE2018 is a joint event with EFMI and SFMI, the Swedish Medical Informatics Society as partners. SFMI will be the organizer of MIE 2018.

#### Submission

We Invite you to submit scientific contributions to the conference. Focus for the MIE 2018 congress will be «Building Continents of Knowledge in Oceans of Data: the Future of Co-Created Health» The conference is pointing to the broad range of topics in digitizing health care citizens participation, professional challenges meeting health information technology, data science, population health informatics, learning health systems, connected health and changing health systems. These topics are addressed from the perspectives of citizens, patients and their families, health professionals, service providers, standards developers and policy makers.

Paper submission deadline	2017-11-01
Notification of acceptance	2018-01-15
Early registration deadline	2018-03-30

In 2008 SFMI were honoured to host the MIE congress. 10 years later were back again in Sweden with MIE 2018.

The organization will be much the same as for MIE2008. It will be a co-arrangement with our yearly Swedish conference Vitalis where the participants can select either MIE2018 or Vitalis sessions. We hope that MIE 2018 in Gothenburg will be a great and memorable event for all of us.
