

Metallurgical and Mining[©] Industry

№ 10

2016

FOUNDER: "Ukrmetallurginform "Scientific and Technical Agency", Ltd.

Table of Contents

Ecology

Chepak O. P., Zavyalova E.L., Zhurbinskiy D. A., Kostenko T. V.

Heavy accumulation of fertile soil layer in the mined-out space of opencast using geothermal energy.....8

Logistics

Sergiy Turpak, Sergey Gritcay, Elena Ostroglyad

Logistics of raw materials supply for the ferroalloy industry.....16

Machine building

Andrii Sulym

Determination of rational placement for energy storages in the power supply system of the underground.....24

Oleksij Fomin, Nataliia Murashova, Angela Shvets

Determination of up-to-date directions of development of domestic system of testing and certification of railways rolling stock.....30

Metalware production

Dolzhanskiy A.M., Bondarenko O.A., Klyuev D.Yu., Lomov I. N.

Determination of parameters and efficiency of process lubricant screw supercharger application when drawing.....36

Mining production

Andrii Panasiuk, Vasil Bondarchuk

Analysis of fractal characteristics of mining and geological parameters of minerals.....42

Anatolii Dryzhenko, Oleksandr Shustov, Andrii Adamchuk

Prospects for future mining of steep iron-ore deposits in the context of Kryvbas.....46

Kolesnikov V.F., Martyanov V.L.

Methods and schemes of quarry fields opening-up under various conditions of deposits occurrence.....53

Nadezhda Medyanik, Irina Shadrinova, Irina Varlamova, Tatiana Chekushina, Natalia Churlyaeva

Reutilization of neutralization sludge formed during the processing of mining enterprises acidic industrial waters.....61

Rolling

Iaroslav Frolov, Henryk Dyja, Gennadii V. Berheman, Vitalii V. Andreiev, Andriy A. Samsonenko

Study of strain resistance of steel applied for manufacture of large-sized shaped sections.....70

Gichev Yu. A., Stupak M. Yu., Pertsevoi V. A., Matsukevich M. Yu.

The application of fuel burning pulsating resonance during drying and heating processes of steel-teeming ladles.....76
