

Metallurgical and Mining[©] Industry

№ 12

2016

FOUNDER: "Ukrmetallurginform "Scientific and Technical Agency", Ltd.

Table of Contents

Automation

- Uchitel A. D., Osadchuk Yu. G., Kozakievich I. A.**
Improving the accuracy of servo drives of metalworking machines.....8

Engineering science

- Sorochinskaya O. L.**
Analysis of ways of improving the conditions of labor protection at the enterprise.....12

Machine building

- Kulbovsky I. I., Agarkov A. V., Blizniuk K. P., Kiyashko V. T.**
Development of main strategies of project management of production- technological potential usage by divisions of underground.....18
- Dashchenko A.F., Kolomiets L.V., Limarenko A.M.**
Methods of measuring stress and strain of massive engineering designs taking into account operational factors.....24
- Fomin O.V., Fomin V.V., Obuhovskij V. V.**
Continuation of pellet cars service life based on the technology of overall repair.....31

Materials science

- Taraevskyy O. S.**
Research on exploitation of gas pipelines at areas crossing the natural and artificial obstacles by the method of natural pulse of electromagnetic field of the Earth (NPEMFE).....36

Mining production

- Wu Yun-long**
Mathematical analysis on influence of fan regulation in diagonal mine ventilation system.....40
- Shadrunova I. V., Kolodezhnaya E. V., Gorlova O. E., Chekushina T. V., Orekhova N. N., Lyashenko V. I.**
Resource-saving technologies and technical means for processing raw materials difficult for concentration.....45

Pipe and tube production

- Balakin V. F., Salej A. Yu., Koshul' V. V.**
Methods (procedure) and results of testing lubricants for determination of applicability in the process of rolling the copper tubes in the Cold Tube Rolling mills.....56

Pavlenko A.M., Koshlak H.V., Cheilytko A.O., Nosov M.A., Syzonenko A.V.

Research of effective thermal conductivity and its parts in porous metallic materials with different parameters of porosity.....66
