Table of Contents

Automatization

Zhang Yuxue, Shan Chen

The analysis of the high reliability of the routing protocol based on wireless ad hoc networks in automation of production processes.....6

Blast-furnace process

Semykin S.I., Golub T.S., Semykina E.V.

Features of low-voltage potential effect on metallic phase in slag formed in course of out-of-furnace iron treatment by granulated magnesium.....14

Ecology

Ivan Ivanov, Elena Matukhno, Anzhelika Mieshkova, Marina Sukhareva

Diagnostics of ecological consciousness of metallurgical students.....20

Economy

Wu Hongmai, Sun Jing, Yang Aiping, Ji Hongyi, Lyu Hui, Lyu Chumeng

The Evaluation of Production System Based on an Energy Enterprise.....24

Evstakhy Krizhanivskiy, Volodymyr Mykhalkiv, Oleg Taraevskiy

Influence of change of gas transportation mode on the stress condition of gas pipeline.....33

Electrometallurgy

Yana Myanovska, Yuri Proydak, Igor Filippov, Victor Turishchev

Control of the manganese agglomerate obtaining process by varying the ratio of the components in the initial charge.....38

Engineering science

Li Ruoting, Sun Zhixin, Guo Mengchao, Hu Junbiao

Simulation of a Mining Truck Diesel Engine Fueled with Blended Oxygenated Fuel.....44

Li Ruoting, Sun Zhixin, Guo Mengchao, Hu Junbiao

Analysis of the Cylinder Block Thermal Condition of a Mining Truck Diesel Engine.....51

Machine building

Kolomiets L. V., Orobey V. F., Lymarenko A. M.

Method of boundary elements in problems of stability of plane bending of rectangular section beams.....58

Management

Omelyanenko V.A.

Scientific and methodic bases of high technologies international transfer potential analyzing in metallurgy.....66

Materials science

Majda Mokhtari, Abdel-Hamid Saker, Bouguera Bouzabata

The effect of thermal annealing on the properties of $Al_{1-x}Mn_x$ alloys grown by DC magnetron sputtering.....70

Hichem Maouche , Ali Hadji , Khadija Bouhamla

Effect of inoculation by molybdenum and nickel on hardening phenomenon and wear behavior of high manganese steel75

Mining production

Mohamed Chouafa, Abdelaziz Idres, Ahcène Bouhedja, Aissa Benselhou

Enrichment by leaching of kaolin from Tamazert mine (eastern Algeria).....84

Uchitel A.D., Zhuravlev F.M., Popolov D.M., Dats N.A., Shaida R.P.

By the rational grain-size composition of balling up part of sinter burden.....90

Sun Xiaojuan

The impact of China's financial cycle fluctuation on metallurgy and mining industry.....93

Zakusylo R.V., Kravets V.G., Bojko V.V.

Control of seismic effect of mass explosions using low-speed means of initiation.....99

Pipe and tube production

Valeryj Makovej, Vladimir Melnik, Pavel Protsenko

Production of helical heat exchanger tubes by roller spinning.....104
