## Table of Contents

### Automatization

**Vladimir Morkun, Natalia Morkun**

Ultrasonic testing of the crushed ore particle size distribution in the pulp flow.....8

**Vyacheslav Lobov, Bogdan Shatrovoy, Anton Gavenko**

Field of asynchronous electric drive application with parametric control..... 12

**Rud V.D., Povstiana Yu.S., Saviuk I.V., Samchuk L.M.**

Experimental research of mechanical characteristics of porous ceramics on the basis  
of machine-building scrap..... 18

### Constructional design

**Aleksandr Galkin**

Thermal control in the ore mines of cryolithic zone.....24

### Engineer pedagogics

**Victoria Zinchenko**

Characteristic aspects of system approach in pedagogy .....30

### Engineering design

**Alena Lovska**

Research of dynamic loads acting on the supporting structures of car bodies in train ferries.....34

### Engineering science

**Bolshakov V.I., Chayka A.L., Lebed V.V., Sokhatskiy A.A., Tsyupa K.S., Kornilov B.V.**

System reliability of blast furnace process using pulverized coal injection .....42

**Ganush V. I., Ostroverhov N. P., Sultan A. V., Dzichkovky E. M., Krivchikov A. E.**

Investigation of basic elements loading and tension of heavy hydraulic presses  
for metallurgical production .....51

## Information technologies

- Nataliia Lishchyna, Valerii Lishchyna, Oleh Herasymchuk, Andrii Yashchuk**  
Synthesis and implementation of the ordered access memory in programmable logic devices ..... 58
- Aydosov A.A., Zaurbekov N.S., Absamatova K.A., Aydosov G.A., Zaurbekova G.N., Zaurbekov I.S.**  
Mathematical modeling and numerical methods of atmospheric processes determining pollutants transfer at emergency emissions ..... 65

## Machine building

- Vengryniuk T.P., Osadtsa L.V., Rachkevych I.O.**  
Kinematic analysis of the piston-type pump mechanisms by numerical methods ..... 70
- Ganna Shyshkanova, Tetyana Zaytseva, Oleksandr Frydman**  
Stress and elastic displacement in doubly-connected rectangular contact areas of machine pieces ..... 77

## Materials science

- Tatyana Danilenko**  
The question of determination of grain size in researches of metal structures ..... 82
- Oleksandr Povstyanoy, Nataliia Imbirovuch, Yuliia Kuts**  
Peculiarities of protective coating of constructional details with powder obtained from industrial wastes .... 88
- Nataliia Guliieva**  
The filtration efficiency of porous permeable materials of saponite – titanium system composite ..... 97

## Mining production

- Men Yongsheng, Jin Longzhe, Yang Zhe**  
Research on key technology of waterproof refuge chamber for non-coal mine disaster ..... 100
- Vladimir Golik, Vitaly Komashchenko, Vladimir Morkun**  
The economic efficiency of ore fields development technology combination ..... 111
- Yuriy Vilkul, Valeriy Slobodyanyuk, Ivan Maximov**  
Optimization of capacity and the number of crushing and transfer stations at the deep open pits ..... 116
- Taras Mormul**  
The improvement of methodic principles to make technological decisions in the context of open-pit mining while land saving ..... 121

## Rolling

- Victoria Chubenko, Alla Hinotskaya, Valeriy Chubenko**  
Research of influence of inoculator particles dispersion on the period of liquid steel crystallization at roll continuous casting for obtaining thin plates ..... 128

## Thermal technology

- Kariuk A.M., Mishchenko R.A., Ilchenko V.V., Tkachenko I.V.**  
Air temperature valuation for designing of thermal protective shell of buildings ..... 134
