## Table of Contents

### Automation

**Vladimir Morkun, Natalia Morkun, Nikolai Podgorodetsky**

Size correction of fuzzy classifier rules area by dispersion value of ultrasonic measurements results in ore mineral varieties determining.....8

### Blast-furnace process

**Baboshko D. Yu., Tkach V. V., Gubin G. V., Zima S. N., Vodennikova O. S.**

Peculiarities of carbothermic reduction of titanomagnetite ore pellets.....12

### Die forging

**Belevitin V.A., Smyrnov Y.N., Kovalenko S.Y., Suvorov A.V.**

Simulation of the macrostructure influence of forging ingots on the potential capabilities of obtaining high-quality forgings.....18

### Ecology

**Tymofii Zhukovskiy, Olena Pshenichnova, Leonid Pisnya, Olena Tkachova, Valerii Kartsev**

The introduction of a unified national approach to classification procedure of wastes to hazardous.....24

### Economy

**Pavel Gurianov**

Innovative stagnation of industrial enterprises of Russia: state and perspectives of development vector.....30

### Engineer pedagogics

**Marina Suriakova**

Attitude to the future professional activity of students-metallurgists.....36

**Iryna Bulhakova**

Creation and implementation of massive open online course on discipline "Web-design and presentation of intellectual activity results" on the subject "Creation of Web Pages".....41

### Machine building

**Boryak K. F.**

A new design of non-automatic weighing calibration device for weight-free verification of large-load platform railroad scales.....46

### Management

**Omelyanenko V.A.**

Analysis of intersectoral technological linkages on metallurgy innovative development.....50

## Materials science

### **Oleksiy Kotrechko**

The method of determining static microhardness of metals and their alloys by Kotrechko.....54

### **Volodymyr Grudz, Andriy Zhdek, Vasyl Bolonnuy**

Formation of soil pollution area by oil when there is break of airtightness of main pipeline.....56

## Mining production

### **Souad Bentaalla-Kaced, Karima Deramchi, Tahar Aifa, Abdelaziz Boutrid, Berdoudi Said, Samira Boutria**

The dolerites of Tindouf Basin, particularly the Naga region .....64

### **Irina Shadrunova, Margarita Sabanova, Natalia Orekhova, Olga Gorlova, Tatiana Chekushina**

Efficiency of use of collecting agents for increase of extraction values by copper, gold and silver flotation from complex slags of copper-smelting production.....69

### **Vladimir Golik, Vitaly Komashchenko, Vladimir Morkun, Olga Burdzieva**

Simulation of rock massif tension at ore underground mining.....76

### **Ihor Kovalenko, Nikolay Stupnik, Mikhail Korolenko, Valeriy Nebogin, Dmitriy Kiyaschenko**

Complex approach to implementation of filling emulsion explosives Ukrainit in underground conditions.....79
