

Metallurgical and Mining[©] Industry

№ 9

2016

FOUNDER: "Ukrmetallurginform "Scientific and Technical Agency", Ltd.

Table of Contents

Coke and by-product process

Svetlana Kirienko, Vladyslav Sidletskyi

Investigation the influence of composition and shape on briquettes compression strength.....8

Corrosion protection of metals

Steblyanko Valery, Ponomarev Anton, Medyanik Nadezhda, Shadrinova Irina, Chekushina Tatiana

Protection of metal products from corrosion by means of plasma-electrolytic processing of its surface.....14

Ecology

Zhurbinskiy D.A., Kostenko T.V., Kostenko V.K.

Evaluation of radial component of thermal load at workplaces in hot shops.....20

Foundry

Natalya Zhizhkina, Sergey Kuzovov

The development of non-destructive quality control of massive castings.....28

Machine building

Igor Panasjuk, Mark Zaljubovskiy

Determination of design parameters of block linkage mechanism of the drive of machine for processing of details with the compound motion of working reservoir.....34

Materials science

Valentina Z. Kutsova, Anna P. Stecenko, Tatiana V. Kotova

Structure and properties formation of hot-rolled steel 01UT after high pressure torsion.....42

Valentina Kutsova, Maksim Kovzel, Pavlo Shvets, Anna Grebeneva

Kinetics of phase transformations in chromium-manganese cast iron.....47

Mining production

Andreev B. M., Brovko D. V., Khvorost V. V.

Prediction and ensuring the reliability of buildings elements and structures of surface complex at reconstruction.....54

Alexandr Davidenko, Andrei Ighnatov

Basic results of researches of lining and plugging processes at wells construction.....58

Patenting

Novorodovska T., Korogod N., Lamziuk O.

Features of management decision making in the field of intellectual property of modern enterprise.....66

Rolling

Iaroslav Frolov, Mirko Schaper, Olexandr Grydin, Vitalii Andreiev, Andrii Tereschenko

Propagation of surface defects at cold pilger rolling of tubes and pipes.....72
