

CONTENTS

- 1 Demkiv I., Ivasiuk I., Kopach M.**
Interpolation integral continued fraction with twofold node
- 14 Dombrowski M., Dombrowski Z., Sachenko A., Sachenko O.**
Method of decision-making the proactive project management of organizational development
- 21 Drobenko B., Budz S.**
Assessment of suitability of screen tubes with damages for further use on the basis of mathematical modeling
- 30 Hachkevych O., Musij R.**
Mathematical modeling in thermomechanics of electroconductive bodies under the action of the pulsed electromagnetic fields with modulation of amplitude
- 37 Hnativ B., Didyk A., Tokarchuk M.**
Generalized Fokker–Planck equation for the distribution function of liquidity accumulation
- 44 Javorskyj I., Dzeryn O., Yuzefovych R.**
Analysis of mean function discrete LSM-estimator for biperiodically nonstationary random signals
- 58 Kostrobij P., Markovych B., Viznovych O., Zelinska I., Tokarchuk M.**
Generalized Cattaneo–Maxwell diffusion equation with fractional derivatives. Dispersion relations
- 69 Lozynskiy O., Lozynskiy A., Paranchuk Y., Biletskyi Y.**
Optimal control of the electrical mode of an arc furnace on the basis of the three-dimensional vector of phase currents
- 77 Malachivskyy P., Pizyur Ya.**
Chebyshev approximation of the steel magnetization characteristic by the sum of a linear expression and an arctangent function
- 85 Mashkov O., Chumakevych V., Sokulsky O., Chyrun L.**
Features of determining controlling effects in functionally-stable systems with recovery of control
- 92 Nakonechnyi O., Zinko P., Shevchuk I.**
Guaranteed predictive estimation of solutions of system of differential equations with the Gompertzian dynamics
- 101 Peleshchak R., Lytvyn V., Peleshchak I., Doroshenko M., Olyvko R.**
Hechth–Nielsen theorem for a modified neural network with diagonal synaptic connections
- 109 Kostrobij P., Polovyi V.**
Surface plasmon polaritons in dielectric/metal/dielectric structures: metal layer thickness influence
- 116 Pyanylo Ya., Prytula N., Prytula M., Khymko O.**
On an invariant of a non-stationary model of pipelines gas flow
- 129 Ryzha I., Gaiduchok O.**
Mathematical model for carbon monoxide oxidation: influence of diffusion effects
- 137 Semenov V., Kruhlyk O.**
Efficient method of M-PSK demodulation based on particle filtering
- 144 Vavrukh M., Dzikovskyi D., Stelmakh O.**
The shell model of electron structure of negative hydrogen ion
