

343.8

*In article analyzes the regime as a means of influencing people who are serving punishment for malicious disobedience to the requirements of the administration of the penitentiary institution. It is proved that its improvement will create conditions for preventing the commission of the convicts of this criminal offense and will make it possible to increase the efficiency of work with the convicted staff of places of deprivation of liberty.*

**Key words:** *regime, punishment, malicious disobedience, administration, institution, personnel, convicted, criminal offense.*
