

# **A rapidly evolving society as a stress**

*Oleh Chaban*

Department of Psychosomatic Medicine and Psychotherapy,  
Bogomolets National Medical University; Editor-in-chief

How does social development affect the individual's brain and psyche? What is the role of progress in a development of psychiatric and psychosomatic disorders? What new mental health problems are emerging now and what can be expected in the future? This video is an educational material that proposes a point of view on this issues. Available only in Ukrainian.
