

СОДЕРЖАНИЕ

Zimoglyad A.Y., Guda A.I.

Development of a system for thermal evaporation 3

Vovk S.M., Hnatushenko V.V.

Criteria and techniques for processing noisy data with anomalous values 12

Potebenko O.V., Mikhalyov A.I.

Research of possibilities of application InftyReader OCR-systems in pattern recognition problems of graphical objects of scientific and technical documentation 27

Белозёров В.Е., Волкова С.А.

Квадратичные модели популяционной динамики и неквадратичные обобщения вольтерровских систем 37

Зайцев В.Г.

О некоторых проблемах численного моделирования управления нелинейной системой Генесио-Теси 52

Mikhalyov A.I., Stenin A.A., Ignatenko V.N., Soldatova M.A., Stenin A.S.

Synthesis of optimal consumption fuels one class of linear nonstationary systems (the method of predicted control) 64

Mikhalyov A.I., Stenin A.A., Drozdovich I.G.,

Stenin S.A., Tymoshin YU.A.

Classification and assessment of the quality of industrial products 73

Muzyka L.V., Pryadko N.S., Ternovaya E.V., Shvachich S.V.

Quality control of the grinding products 82

Tokareva E.L., Ternovaya E.V., Pryadko N.S., Strelnikov G.A.

BTVCS functional circuit on one control channel of the mid-flight space rocket stage engine 89

Якунин А.А.

Международная электронная коммерция для малых и средних предприятий 94

Mikhalyov O.I., Kozar O.V.

Large cities road traffic self-similarity research 100

Якунин А.А.

Управление транспортной логистикой на крупных промышленных предприятиях 107

Vasiliv S.S.

Computer simulation of the fuel component mixing process in the combustion chamber of detonation rocket engine 114
