**GENERAL METHODS FIGHT OF THE ENEMY WHICH PUT INTO PRACTICE NET-CENTRIC TO PLAY ON THE MODERN WAR**

J.F. Kucherenko, A.M. Nosyk

*In the article essence of conception of prosecution of Network-centric warfare is exposed and meaningfulness of application is exposed by global informatively - the sensor-based system from the automated management by the interspecific groupments of troops of the armed forces, that is used by a hi-tech opponent, and also some asymmetric events that must be applied against a highly technological opponent are certain, to decrease advantage in a fight against him.*

**Keywords:** war, armed forces, Network-centric war, interspecific group, method, opponent, control.
